Games like Line/Dash are my favorite. They're simple to learn, tough to master and continue to make you say "one more time.". Fun little dexterity-based game.. What a great game! simple and addictive lilke tetris. just five more minutes and 1 hour has gone playing! Totally worth the price it costs.. The whole game is visibile in the preview video: it's a challenge between you, time, and squares- those damn squares, how much I hate them! Very addictive. SPOILER: at sometime in the end, you'll lose.. What a great game! simple and addictive lilke tetris. just five more minutes and 1 hour has gone playing! Totally worth the price

it costs.. A nice arcade game, relaxing but compelling at the same time, once you start play you wanna constantly improve your score. For two bucks it's a steal.. A very interesting abstract game. 1) You left click to make an arrow fall down from the top left corner of the screen. 2) You right click to make the arrow (or arrows) turn right, (e.g. towards the right side of the screen). 3) If you hit an "enemy", the line gets split in two (so that it's now two arrows going up and down. GOTO 2 I think the game is sold at a very low price, too! Just watch a video! I'm sure you'll like it! :) I just wish the Arcade Mode started a bit "harder", but I guess the current pace is ok to fit a wider audience.. COME FOR THE LINE / STAY FOR THE DASH
